STYLE

SERVICE FOR *every* BUDGET.

CARING,
customized
SERVICE AT A
PRICE THAT
FITS YOU.

We think that everyone – at every budget – deserves style, service, and the peace of mind that comes with local expertise and the best warranty out there. We come to your home and do it all for you – design, measure, and install. Choose your local, neighborhood experts. Plus, the backing of North America's #1 provider of custom window coverings. All at a price that works for your budget.

Now that's a beautiful thing.

Now, we can retrofit most existing shades and blinds to open and close at the touch of a button.

We simply install a battery-powered motor, which is concealed inside the headrail. Completely wireless, so installation is a breeze. And, of course, we can also give you brand-new smart shades or blinds using the same battery-powered motorization. We make it so easy and affordable to motorize your window coverings – you get real convenience plus cordless child and pet safety. *It's one very big idea.*

Convenience

Especially great for hard-to-reach windows

Security

Set your window coverings to open and close automatically, so it looks like you're home, even when you're away

Energy Efficiency

Keeps you warmer in winter, cooler in summer

Child Safety

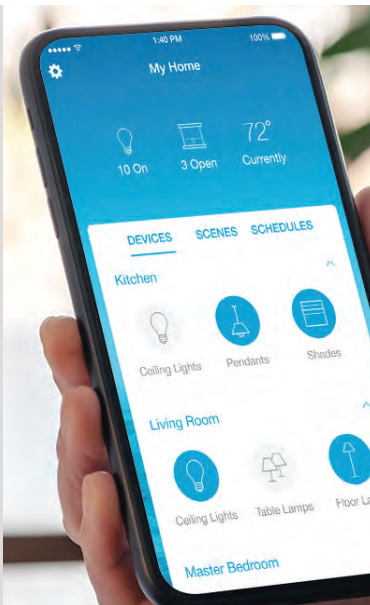

Completely cordless, no dangling cords

EXTRA SECURITY
& ENERGY SAVINGS, TOO.

Budget Blinds is North America's #1 provider of custom window coverings. And Lutron is the worldwide leader in smart home technology. It just doesn't get any better than this for automatic shades, lighting and more. And now, we also feature SONOS, the ultimate wireless whole-home sound system.

Doesn't all of that sound really good?

If you have kids or pets, you need cordless window coverings. All of our custom shades and blinds, automated or standard, are available cordless. **Bonus:** choose automated window coverings and you can set them to open and close when you're away. You get peace of mind with extra home security. And energy savings, too – just use the app to have your shades or blinds open to keep the sun out when it's warm, and closed to keep heat in when it's cool.
